

1. Open the 'Sleep Recordings' folder and find the test you want interpreted. In this example, we will get a sleep read for Joe Patient.

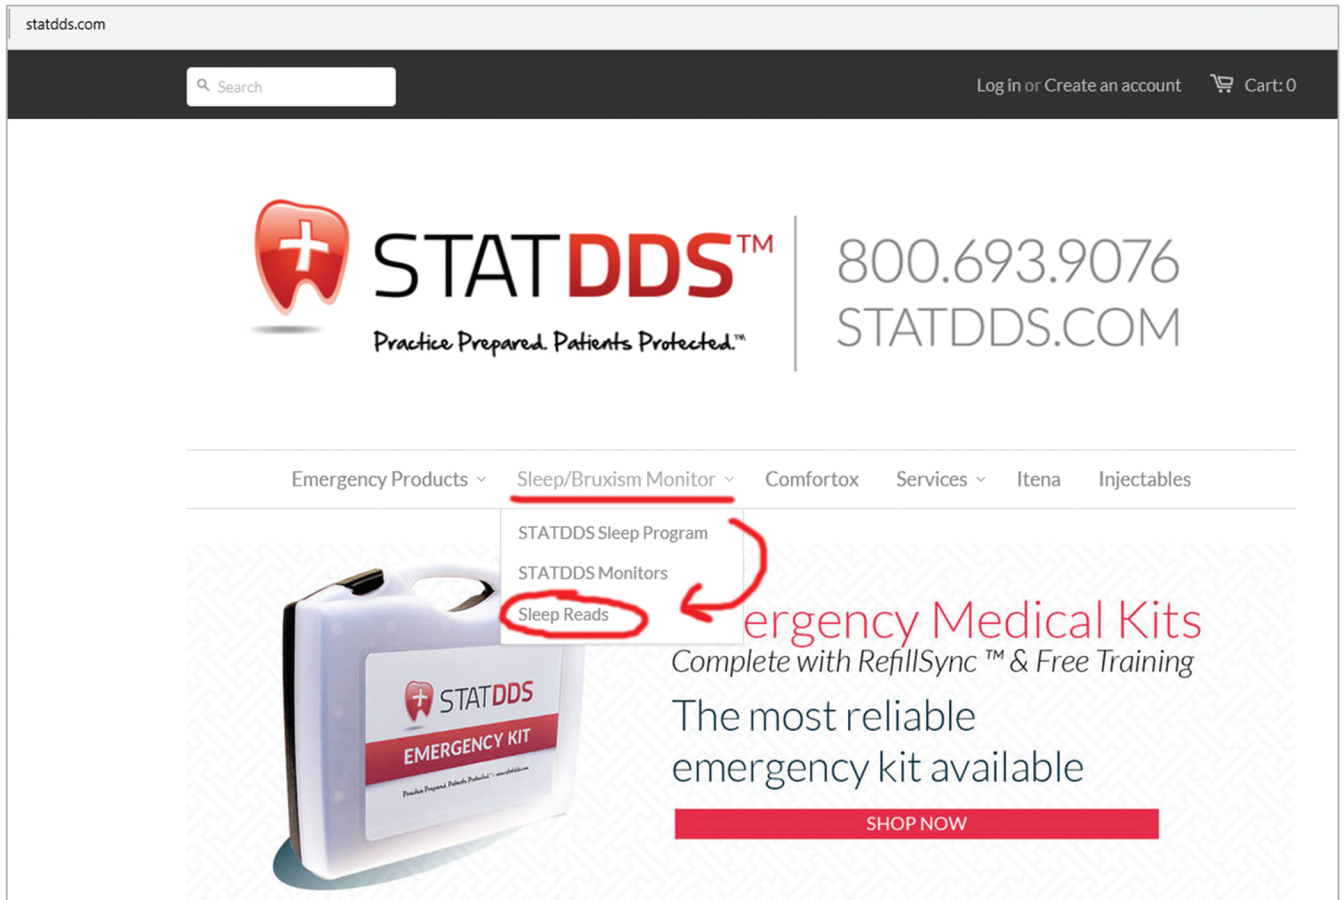

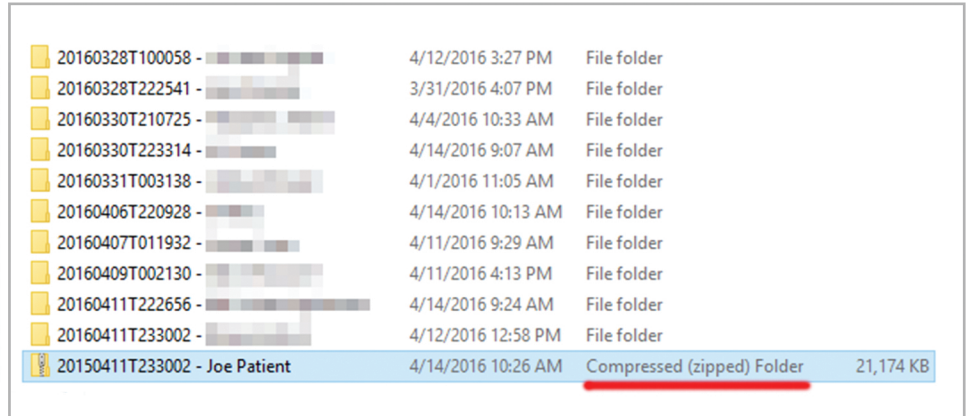

3. The patient's test will be duplicated as a compressed .zip archive.

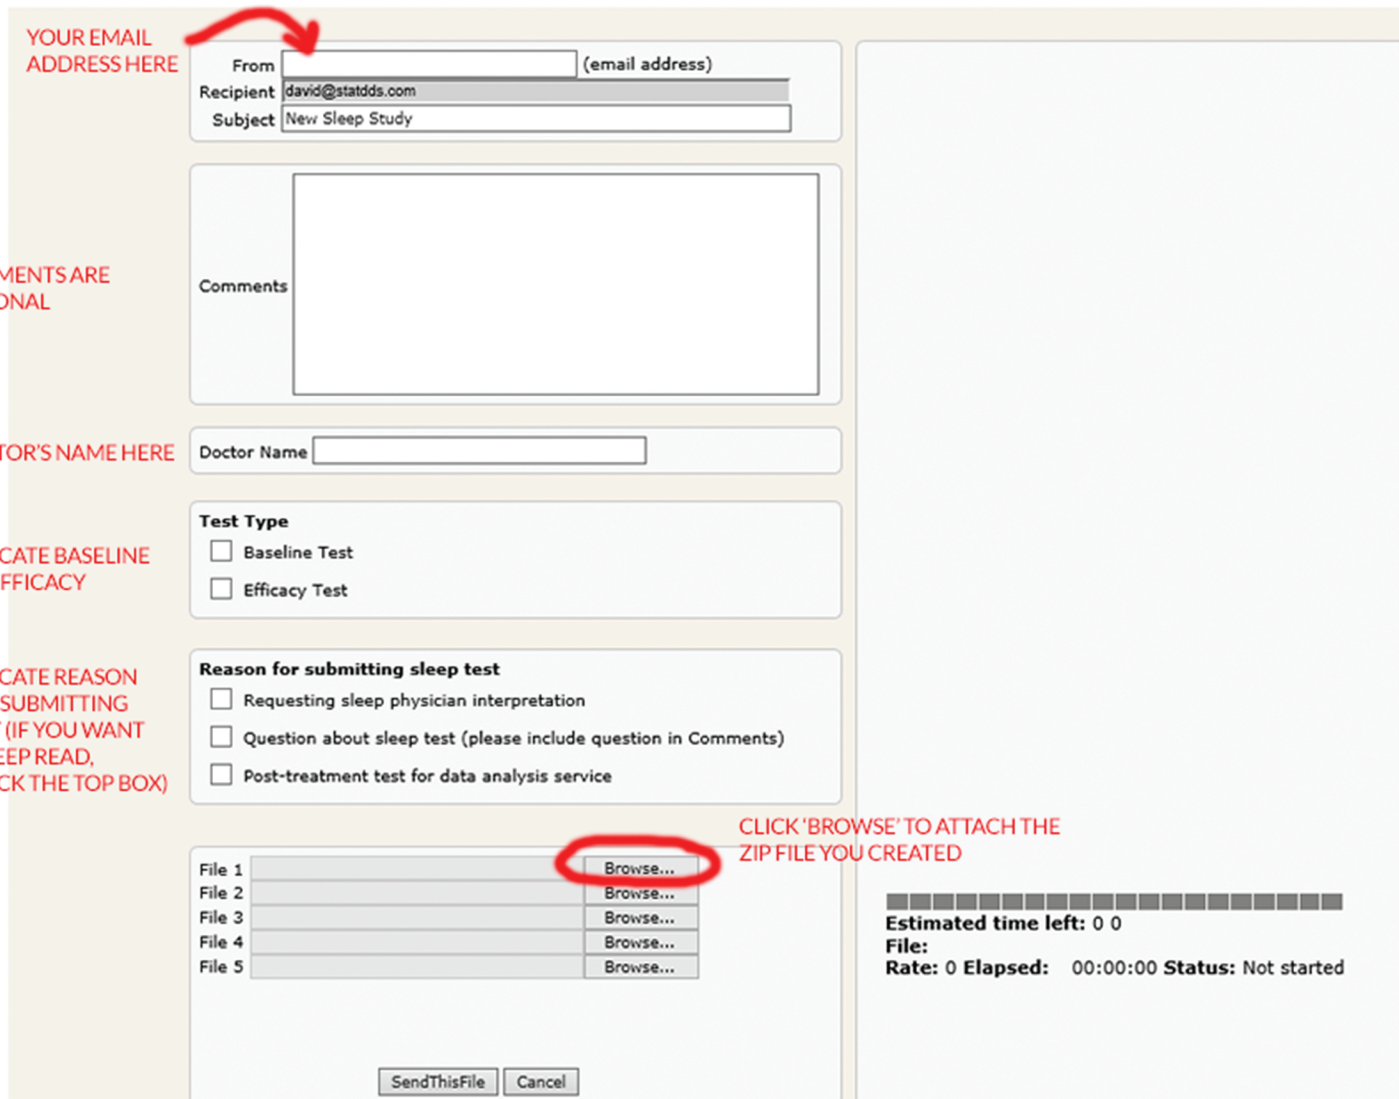

4. Next you will open your web browser and go to STATDDS.COM. Click 'Sleep Reads' under the 'Sleep/BruXism Monitor' tab at the top of the page as illustrated below.

Sleep Read Uploads

Please upload your sleep tests to the portal using the form below.

5. This will take you to an upload screen. Fill it out according to the red text in this illustration. When you are done, click 'Browse' to attach the .zip file you created. You may attach more than one test at a time, if you wish.

6. Select the .zip file and click 'Open' to attach it. Make sure it is the .zip file by seeing that the file type is 'Compressed (zipped) folder' and *not* 'File folder'.

7. With the file attached, click 'SendThisFile' to upload it to STATDDS. Keep an eye on the status bar on the right of the screen and don't close the browser window until the upload has completed.

IMPORTANT: DO NOT CLOSE THE BROWSER WINDOW UNTIL THE FILE HAS COMPLETELY UPLOADED
